EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Linda M. Saltiel on October 18, 2005 and October 28, 2005.

3. The application has been amended as follows:

- Cancel Claims 2-4;
- Replace the Title with –Transflective liquid crystal display device having surface roughness in the transmissive area and homeotropic alignment--.

4. The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a liquid crystal display (LCD) device comprising, in particular, a reflective and transmissive display area, where the liquid crystal layer includes negative dielectric anisotropy liquid crystals with homeotropic alignment in the initial state and the transmissive area including a liquid-crystal-contact-surface-roughness forming device to form irregularities on one of the liquid crystal contact surfaces of the substrates between

which the liquid crystal layer is displays and where the light diffusing device of the reflective display area is formed of the same material. Moon et al. (U.S. Patent No. 6,879,361) discloses the transmissive area including a liquid-crystal-contact-surface-roughness forming device to form irregularities on one of the liquid crystal contact surfaces of the substrates between which the liquid crystal layer is displays and where the light diffusing device of the reflective display area is formed of the same material; however, the reference fails to specifically disclose the liquid crystal layer including negative dielectric anisotropy liquid crystals with homeotropic alignment in the initial state. As a result, allowance is proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
